

RECYCLE & COMPOST EQUIPMENT FOR BUSINESSES

County and City staff provide indoor equipment and assistance to help businesses establish and/or expand recycling and compost programs. This is provided at no direct charge to businesses but is instead built into monthly rates.

Each business is unique. We try our best to help you design a program that works for your individual needs. Email naparecycles@cityofnapa.org or call 257-9200 for more details.
